Date: 7/13/2013

To
Director
Ministry of Environment & Forests, Regional Office (North)
Government of India
Bay No. 24 25, Sector 31A,
Chandigarh
Subject: Six monthly report submission for the project namely "DLF Garden City" at
Bhageshpur, Phjore- Distt Panchkula.

Sir,

We are enclosing along six monthly compliance report for period ending 30th Sep'13 along with
compliance of the stipulated environmental conditions at the EC. All relevant detailed documents
are attached as annexure for your kind consideration. In addition to the test reports on ambient
air, water and noise levels are also attached. Scan copy of the compliance report is also given
along with this CD.

Thanking you.

Sincerely,

For M/s DLF Homes Panchkula Pvt. Ltd.

Dear Sir,
Ministry of Environment & Forests, Regional Office (North)
Government of India,
Bldg No. 1, Sector 11A,
Chandigarh

Subject: Six monthly report submission for the project namely "DLF Gateway City" at
Bata township, Panchkula District Panchkula.

Sir,

We are enclosing herewith six monthly compliance report for period ending 31st Sept 2013 along with
compliance certificate for the time period upto 31st Sept 2013 of the PCC, Air, Noise and Fire safety aspects
as directed by notification for compliance certificate submission in the said report on ambient
monitoring and noise level monitoring. Some copies of the compliance reports may be sent
to the project site.

Thanking you,

Sincerely,

For M/s DLF Homes Panchkula Pvt. Ltd.

DATA SHEET

1.	Project Type	Integrated Township Construction Project
2.	Name of the Project	DLF Garden City, Bhagwanpur, Pinjore, Dist. Panchkula, Haryana Project By: M/s DLF Homes Panchkula Pvt. Ltd
3.	Clearance letter (s)/C.M No. & dates	Environment Clearance has been granted vide letter no. 21/08/2007-(A.III) dated 12 th November, 2008 Copy has already been submitted.
4.	Location	
	a) District (s)	Panchkula
	b) State (s)	Haryana
	c) Latitudes/ Longitudes	30°45'08.66"N 76°54'32.58"E
5.	Address for correspondence	M/s DLF Homes Panchkula Pvt. Ltd. Chandigarh Technology Park, Plot No -2, Tower-D, Ground Floor, Chandigarh
6.	Salient features	
	a) of the project	The project will comprise the construction of multistoried residential building plus Crèche, Nursery, Primary School, High School, dispensary, Club Community Centre, Sub Post office and religious buildings. The total plot area is 809665.2 sqm and total built up area will be 881517.73 sqm. The total cost of the project is Rs. 594 crore.
	b) of the environmental management plans	The total water requirement will be 6241 KLD. The total wastewater generation from the project will be 4143 KLD which will be treated in a STP of 4200 KLD capacity to be installed within project premises. The total quantity of solid waste generation will be 9953 kg/day, which will be segregated into organic and inorganic waste. The recyclable solid waste will be handed over to authorized vendor for recovery and recyclable material and organic biodegradable waste will be sent to solid waste converter for conversion into manure.
7.	Break-up of the project area	
	a) Submergence area: Forest and Non-forest	Not applicable
	b) Others	Not applicable

8.	Break-up of project affected population with enumeration of those losing houses/dwelling units only, agricultural land only both dwelling units and agricultural land and landless labourers/artisans.	Not applicable																
	a) SC/ST/Adivasis	Not applicable																
	b) Others (Please indicate whether these figures are based on any scientific and systematic survey carried out or only provisional figures. If a survey has been carried out give details and year of survey)	Not applicable																
9.	Financial details:																	
	a) Project cost as originally planned and subsequent revised estimates and the year of price reference.	Total cost: Rs. 594 Crore																
	b) Allocations made for environmental management plans with item wise and year wise break up.	b) Expenditure on typical Environmental Measures <table border="1" data-bbox="794 1025 1481 1496"> <thead> <tr> <th data-bbox="794 1025 1281 1126">Details</th> <th data-bbox="1281 1025 1481 1126">Capital Rs. Details	Capital Rs. Lac																	
Sewage Treatment Plant	290																	
Fire Fighting	125																	
Landscaping & Tree Plantation	200																	
Rain Water Harvesting:	300																	
Solid Waste Management:	57																	
Gense's with acoustic enclosure	375																	
TOTAL:	1374 Lacs																	
	c) Benefit cost ratio/internal rate of return and the year of assessment	Will be calculated and submitted																
	d) Whether (c) includes the cost of environmental management as shown in b) above.	Yes																
	e) Actual expenditure incurred on the project so far.	Rs.442 crore																
	f) Actual expenditure incurred on the environmental management plans so far.	Rs. 56 crore																

10.	Forest land requirement:	
	a) the status of approval for diversion of forest land for non-forestry use	Not Applicable.
	b) the status of clear felling, if any	Not Applicable.
	c) the status of compensatory afforestation, if any.	Not Applicable.
	d) Comments on the viability & sustainability of compensatory Afforestation programme in the light of actual field experience so far.	Not Applicable.
11.	The status of clear felling in non forest areas (such as submergence area of reservoir, approach road) if any, with quantitative information	Not applicable
12.	Status of construction:	
	a) Date of commencement (actual and/or planned)	October, 2011 (Actual)
	b) Date of completion (actual and/or planned)	April, 2016 (As planned)
13	Reasons for the delay, if the project is yet to start.	Not applicable

.Compliance report on conditions imposed in Environmental Clearance for Period ending 30.09.2015

Part A - Specific conditions

1. Construction Phase

S.No.	EC Conditions	Compliance Status
1	Vehicles hired for bringing construction materials to the site and other machinery to be used during construction should be in good condition and should conform to applicable air and noise emission standards.	The vehicles hired for bringing construction material are well maintained. PUC certificate is attached at Annexure 1.
2	All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site in the project.	The excavated topsoil will be stored within the project site for horticulture/ landscape development.
3	Ready mixed concrete shall be used in building construction as far as possible.	At site, Ready Mix Concrete (RMC) is used for civil construction purposes.
4	Water demand during construction should be reduced by use of pre mixed concrete, curing agents and other best practices referred.	Measures are taken to reduce the water demand during construction.
5	Permission to draw and use ground water for construction work shall be obtained from competent authority prior to construction/operation of project.	Approval of CGWA has already been submitted
6	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensors based control.	Fixtures for showers, toilet flushing and drinking are being installed. Details will be submitted in the due course of time.
7	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.	The limited use of glass is being done in making houses. Normal windows are provided for appropriate light in day time.
8	Roof should meet the perspective requirement as per energy conservation building code by using appropriate thermal insulation material to fulfill requirement.	Agreed, The section plan of roof design has already been submitted.

9.	Opaque wall should meet perspective requirement as per energy conservation building code which is proposed to be mandatory for all air conditioned spaces while it is aspiration for non air conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.	Adequate thickness has been provided for appropriate insulation. The details have already been submitted.
10	Storm water control and its use should be as per Central Ground Water Board and BIS Standards for various applications.	Details of storm water control has already been submitted.
11	All required sanitary and hygienic measures including portable toilets/ septic tank etc. for labour should be in place before starting construction activities and to be maintained throughout the construction phase.	Hutments with proper facilities are provided to labors. The sanitary measures are followed inside the premises. Proper toilets along with septic tanks are provided. The safe drinking water facilities are available. Photographs attached at Annexure-2.
12	Soil and Ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching heavy metals and other toxic contaminants.	There is no provision left for leaching of heavy metals and other toxic contaminants in to the ground water. Test reports are attached at Annexure-3.
13	A first aid room will be provided at the project site both during construction and operation of the project.	First Aid room has been provided at the site. Photographs attached at Annexure-2.
14	Adequate drinking water facility should be provided for construction workers at the site. The safe disposal of waste water and solid wastes generated using the construction phase should be ensured.	There is adequate drinking water supply to the workers at construction site.
15	Disposal of muck including excavated material during construction phase should not create any adverse effects on the neighboring communities and be disposed off taking the necessary precautions for general safety and health aspects of people.	There is no provision for basement in the proposed housing structures. Soil is excavated only for routine foundations and backfilled.
16	Diesel power generating sets used during construction phase should be of "enclosed type" to prevent noise and should conform to rules made under Environment (Protection) act 1986, prescribed for air and noise emission standards.	5 DG sets (125 KVA), 2 DG sets (82.5 KVA), 3 DG sets (62 KVA) and 1 DG set (45 KVA) with proper acoustic enclosure have been provided at site.
17	Ambient noise levels should conform to standards both during day and night when measured at boundary wall of the premises. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.	Ambient noise levels conform to standards. Test reports are attached at Annexure-3.

18	The construction agencies shall use fly ash based material products as per the provisions of fly ash notification of 14.9.1999 and as amended on 27.8.2003.	Ply ash based material (PPIB) is used in the construction
19	Vehicles hired for bringing construction material at site should be in good condition and should have valid "pollution under check" (PUC) certificate and to conform to applicable air and noise emission standards and should be operated only during non-peak hours.	Vehicles hired for bringing construction material at site should be in good condition and should have valid "pollution under check" (PUC) certificate.
20	Construction spoils, including bituminous material and other hazardous materials, must not be allowed to contaminate water courses and the dump sites for such material must be secured so that they should not leach to the ground water.	Agreed. There are no hazardous materials recorded in the residential project. However, the various materials are stored in properly earmarked place to prevent any pollution.
21	Any hazardous waste generated during construction phase should be disposed of as per applicable rules & norms with necessary approvals of the State Pollution Control Board.	Spent Oil from DG sets will be stored and disposed as per norms of Haryana State Pollution Control Board /Central Pollution Control Board i.e. will be stored under lock & Key & given to authorized transporter.
22	Under provision of Environmental (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project had started without obtaining environmental clearance.	Project has been granted environment clearance vide letter no 21/08/2007-IA.III dated 12th November 2008 and construction was started after it.
23	The diesel required for operating DG set shall be stored in underground tanks and if required, clearance from chief controller of explosives shall be taken.	The diesel is stored for usage in DG set only and no bulk storage is there.
24	The approval of competent authority shall be obtained for structural safety of the buildings due to earthquake, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning etc. if any forest land is involved in the proposed site clearance under the forest conservation act shall be taken from the competent authority.	The drawings of the project are made by approved structural consultant Vintec Consultants N Delhi engaged by us and duly approved by town and planning department, Haryana and taking into consideration that buildings are in Zone-IV w.r.t earthquakes. However there is no forest land involved in this project.
25	Regular supervision of above and other measures for monitoring should be in place all through the construction phase so as to avoid disturbance to the surroundings.	Agreed and accepted.

11. **Operation Phase:** The project is still under construction phase so compliances of operation phase is not applicable.

Part B. General conditions

Sr. No.	Conditions	Reply
1	The environmental safe guards contained in the documents should be implemented in letter and Spirit.	Environment safeguards are being implemented in true spirit.
2	Provisions should be made for the supply of kerosene or gas and pressure cooker to the labors during construction phase.	Workers have food in canteen provided by the contractor.
3	Six monthly monitoring report should be submitted to the ministry and its regional office.	Agreed. the six monthly reports are regularly submitted to the Regional Office MoEF.
4	Officials from the Regional Office of MoEF, Chandigarh who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents /data by the project proponents during their inspection. A complete set of all the documents submitted MoEF should be forwarded to the CCF, Regional Office of MoEF, Chandigarh.	Agreed, Authorities will be given full cooperation, facilities and documents /data.
5	In the case of any change(s) in the scope of project, the project would require a fresh appraisal by this ministry.	Agreed and accepted.
6	The ministry reserve the right to modify /add additional Environmental Safeguards subsequently, if found necessary. Environment clearance granted will be revoked if it is found that false information has been given for approval of the project.	Agreed and accepted.
7.	Necessary permission shall be obtained from the state fire department for providing fire safety measures before allotment of premises for Residential purpose in the town ship.	Agreed, permission shall be obtained.
8.	These stipulations would be endorsed among others under the provisions of the Water (Prevention and Control of Pollution) Act 1974, the Air (Prevention Control of Pollution) Act 1981, the Environment Protection Act 1986 and the Public Liability Insurance act, 1991.	Agreed and accepted.
9	The project proponent shall enter in to MoU with all buyers of the property if any to ensure operation & Maintenance of the STP and other assets.	Agreed

10	This environmental clearance is subject to the decision of the Hon'ble Supreme court in the Matter of Writ Petition (Civil) 460/2004 of Goa Foundation v/s Union of India.	Agreed and accepted.
11	Any Appeal against this environment clearance shall lie with the National Environment Appellate Authority, if preferred, within a period of 30 Days as prescribed under section 11 of the National Environment Appellate Act, 1997.	Agreed & Accepted

 Packing, Markings, Seal: **Sampling by Laboratory**
 Quantity: **Poly Bag Marked 'B/2300'**
 Date of Sampling: **1kg**
 Sampling Location: **23.11.15**
 Sampling Team: **From River Yarc**

Date of Receipt of Sample: **Laboratory Representative: Mr. Ravkant & Team**
 Date of Reporting: **Customer Representative: Capt. Kalidass (Security Officer)**
 23.11.15
 30.11.15

Remarks & Observation: **Brown color soil**

S.No.	Test Parameters	Units	Results	Test Method
1.	pH (2.5)		7.23	IS:2720 (Part-20) 1987
2.	Electrical Conductivity of Saturation Extr. (EC)	mmhos/cm	0.179	IS:4767:2000
3.	Soil Moisture Content	%	6.9	IS:2720 (Part-11) 1971 & 2002
4.	Soil Texture		Clay loam.	IS:2720 (Part-4) 985
5.	Bulk Density	gm/cc	1.4	IS:2720 (Part-11) 1980
6.	Organic Matter	%	0.51	IS:2720 (Part-22) 1972 & 2010

TEST REPORT

Ref: 14/12/15	Lab No.	EL231115EC004	Page-1/1
Customer:	DLF Garden City Bhagwanpur, Pirjora, Dist. Panchkula (H.R)		
Type of Sample:	Water		
Work Order No. & Date:	Six Monthly Work Order		
Mode of Collection of Sample:	Sampling By Laboratory		
Packing, Marking, Seal & Identity:	Plastic Bottle & Sterilized Glass Bottle Marked B/23/01		
Quantity:	2litre - 250ml		
Sampling Location:	Prata Burewall (Near Dhyam Singh Office)		
Sampling Protocol:	IS: 3025-(P-1)-1987-R-1998 Amdt-1		
Date Of Sampling:	23.11.15		
Sampling Team:	Laboratory Representative: Mr. Ravikan & Team Customer Representative: Capt. Kalidass (Security Officer)		
Date of Receipt of Sample:	22.11.15		
Date of Reporting:	30.11.15		
Testing Protocol:	IS: 110500-2012		
Remarks & Observation:	Clear colorless liquid.
